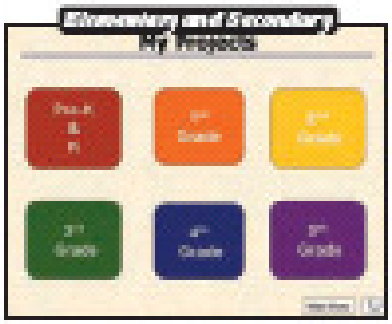
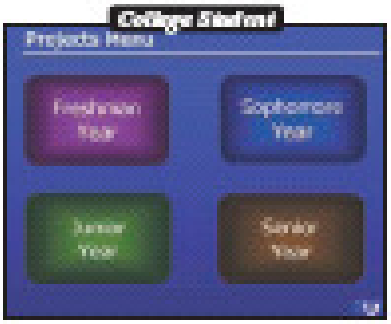
If you know how to use PowerPoint, you know how to create a digital portfolio with the Portfolio Builder. For those who don't know PowerPoint, there's a tutorial that teaches PowerPoint while you learn to use the Portfolio Builder. These e-portfolios can be used for authentic assessment, as an electronic résumé or as a digital scrapbook. Students can simply insert their own projects into the appropriate template or can change the template to their own look and form. Portfolios can easily be aligned to local, state and national standards. Some templates include lists of national standards for a variety of subjects as well as links to web sites for standards. Grades 3–12





"I put together my portfolio in just two days!"
–5th grade student, Texas

"We teach our digital portfolio development workshops using The Portfolio Builder because it is so easy to learn to use, but still quite flexible and powerful."
–Professional in-service workshop leader

"Simply put: the easiest and fastest way to have students create digital portfolios."
