## Quick Guide to the 201&-1' District Profile Report: English Language Learners (ELLs)

Office of Educational Accountability
October 2013

The District Profile Report shows the Annual Measurable Achievement Objectives (AMAOs) determinations for districts that serve English language learners. There is also a district-wide student data file supplement with ACCESS for ELLs® results. Use of the district profile report and data file must be in accordance with federal and state privacy laws, and district policy. For more information on protecting student privacy, see <a href="http://lbstat.dpi.wi.gov/lbstat\_dataprivacy">http://lbstat.dpi.wi.gov/lbstat\_dataprivacy</a>.

## 1. Annual Measurable Achievement Objectives (AMAOs)

Information in the "Summary Determinations" box <u>only</u> may be shared publicly as it contains no personally identifiable student information.

Did your district meet Annual Measurable Achievement Objectives?

## 2. District-Wide Student Data File

This file contains student-level ACCESS for ELLs® results that are not included in the district report, such as reading, writing, listening, speaking, comprehension, oral, and literacy scores.

The data are stored as comma separated values. The file can be opened using a program such as Excel. A list of data elements is available in the Resources folder in the Secure Access File Exchange (SAFE).

Use of this data file within your district must be in accordance with federal and state privacy laws, and district policy.
