

Contributions of the Community Academic and Career Planning (ACP) Committee Members

Sharing your experiences, energy, and passion for academic success and career readiness for all students.

Learning the essentials of the state-wide ACP initiative.

Supporting the role of student learning and practicing being present in the moment every day at home, school, and play.

Sharing our dedication to teaching all students the importance of understanding that all work and careers are noble when performed by a noble person.

Character
Promoting the importance of characterful behavior as the foundation of employability skills development.

Being assured that the students, parents, instruction staff, and administrators appreciate your time and contributions to this worthwhile committee.

Collaborating with community members and educators in clarifying the development, implementation, and usage of ACP's with students, parents, businesses and community groups and agencies, and West Allis and West Milwaukee citizens.

Contributing to committee work groups.

Participating in four committee meetings between October and June.

Serving as an ambassador in the community for the need and value of ACP's for all students.
