Good afternoon, District Assessment Coordinators:

DLM Individual Student Reports (Bundled Versions)

As communicated in the 9/14 DAC Digest, DLM has posted the 2015-16 Individual Student Reports in Educator Portal last week. However, the availability of the ***bundled*** version of DLM ISRs in Educator Portal is not functioning correctly. The bundled version of the ISRs allows districts to print multiple student reports at the school-level at one time.

DLM has developed a work around for this issue in order to help districts print and distribute reports in a timely manner. Tomorrow, all District Assessment Coordinators will receive two emails from d1m@ku.edu. These emails will contain a link to the secure DLM file transfer site as well as the district specific password. Districts will then be able to download bundled versions of the reports at a school-level. The link and password will be available for 10 days.

DLM will continue to work on loading the bundled version of the ISR in Educator Portal. As mentioned previously, the single versions of the ISR continue to be available for districts in Educator Portal.

Please contact [Kristen Burton](#) if you have additional questions or concerns.

Thank you.
