WASB Commends Evers' Funding Reform Plan

John H. Ashley, WASB Executive Director

On behalf of Wisconsin public school boards, I commend State Superintendent Tony Evers for putting forth a realistic school funding reform plan that would provide long, overdue changes to the way we fund our public schools.

The Fair Funding for Our Future school funding proposal is a comprehensive school funding reform plan that is based on sound public policy and addresses many of the problems and issues with the school funding formula that have been identified for years but haven't been addressed.

We look forward to working with Governor-elect Walker and the state Legislature to enact broad-reaching school funding reform and additional legislation that gives school boards the ability to more effectively balance costs and revenues.

The Wisconsin Association of School Boards is a nonprofit association that provides information and services to Wisconsin school boards in the areas of school law and policymaking, bargaining, legislation and leadership development.
