CESA 3	\$147,576.00	\$71,690.54	Production	Consortium schools work with area employers in very candid conversations about what the districts can do and what the employers need. These provide the proof needed for students to look at the world of manufacturing a valid life's passion.	\$1,392.29
CESA 3	\$147,576.00	\$71,690.54	Professional Sales	Consortium schools are working with students to help them understand how careers in this cluster can be honed on with our post-secondary partners.	\$1,356.01
CESA 3	\$147,576.00	\$71,690.54	Programming and Software Development	Consortium schools have heard from post secondary partners like SWTC and are hearing that the IT sector is continuing to expand. All areas of the industry are growing and our districts are responding with continual development and refinement.	\$1,516.98
CESA 3	\$147,576.00	\$71,690.54	Public Management and Administration		\$0.00
CESA 3	\$147,576.00	\$71,690.54	Quality Assurance	Consortium schools work with area employers in very candid conversations about what the districts can do and what the employers need. These provide the proof needed for students to look at the world of manufacturing a valid life's passion.	\$1,392.29
CESA 3	\$147,576.00	\$71,690.54	Recreation, Amusements and Attractions	Consortium districts are working closely with local partners to provide students in the state youth apprenticeship program. This has become a bridge for which students are looking to UW-Stout.	\$1,359.89
CESA 3	\$147,576.00	\$71,690.54	Restaurants and Food/Beverage Services	Consortium districts are working closely with local partners to provide students in the state youth apprenticeship program. This has become a bridge for which students are looking to UW-Stout.	\$1,359.89
CESA 3	\$147,576.00	\$71,690.54	Science and Math	Consortium schools are fully aware the necessity for students to have a background in math and science, but about the occupational opportunities that exist.	\$2,983.73
CESA 3	\$147,576.00	\$71,690.54	Securities and Investments	While the industry has taken its lumps, consortium students are still interested in careers in this pathway. Excellent postsecondary partners make the process of enrolling extremely easy.	\$1,285.99
CESA 3	\$147,576.00	\$71,690.54	Support Services	Consortium schools see the value of the healthcare industry and in particular this pathway. Partnering with Southwest Wisconsin Area Health Education Consortium and postsecondary partners makes the transition very worthwhile.	\$1,627.98
CESA 3	\$147,576.00	\$71,690.54	Teaching/Training	The key here with consortium schools is to continue the legacy of CTE teachers. Our teachers take a great deal of pride molding a future prodigy and thus the continued emphasis.	\$908.97

Jefferson	\$33,920.00	\$5,386.00	Accounting	Fort Atkinson had a complete change in staff which has allowed for a thorough evaluation of course offerings, course descriptions and work-based offerings to update their POS. With the change in staff was also seen an increase in students enrolled in the Finance Youth Apprenticeship as well as discussion on dual credit for accounting. Jefferson finished their cluster map and POS map which is being used in their classes. They are starting the curriculum review process in their district. The instructors attended consortium, DPI and association meetings to update curriculum. This district also passed a referendum and new classrooms are being planned which will also enhance the POS. Student enrollment in the Finance YA continues to be steady. The Wisconsin Program of Study Implementation Component Guide rubrics are on file for each area that documents the progress on development/implementation/refinement of each POS that is filled out annually by the instructor(s) that are involved with that POS.	\$3,875.00
Jefferson	\$33,920.00	\$5,386.00	Administrative Support	Fort Atkinson had a complete change in staff which has allowed for a thorough evaluation of course offerings, course descriptions and work-based offerings to update their POS. The new instructor was trained in IT Essentials for dual credit. Jefferson finished their cluster map and POS map which is being used in their classes. They are starting the curriculum review process in their district. The instructors attended consortium, DPI and association meetings to update curriculum. This district also passed a referendum and new classrooms are being planned which will also enhance the POS. Student enrollment in Business Coop continues to be strong. The Wisconsin Program of Study Implementation Component Guide rubrics are on file for each area that documents the progress on development/implementation/refinement of each POS that is filled out annually by the instructor(s) that are involved with that POS.	\$2,987.00
Jefferson	\$33,920.00	\$5,386.00	Animal Systems	A WIRED Grant along with CP funds allowed for the expansion of YA to Vet Tech. Fort Atkinson has begun science equivalency for their courses. Jefferson is starting an evaluation of the current courses and making the POS more current. Because of the expansion of YA we have seen an increase in students enrolled in a work-based experience. The Wisconsin Program of Study Implementation Component Guide rubrics are on file for each area that documents the progress on development/implementation/refinement of each POS that is filled out annually by the instructor(s) that are involved with that POS.	\$1,522.00

Jefferson	\$33,920.00	\$5,386.00	Early Childhood Development and Services	Fort Atkinson had a change in instructors which aided the POS development. The instructor attended the DPI conference and has increased enrollment in the childcare courses. Enrollment and placement in child care settings for ACCT certification has also increased. The maps are aiding in this process. Jefferson finished their cluster map and POS map which is being used in their classes. They are starting the curriculum review process in their district. It is the desire of the district to get more depth to this POS beyond the introductory course. The instructors attended consortium, DPI and association meetings to update curriculum. The Wisconsin Program of Study Implementation Component Guide rubrics are on file for each area that documents the progress on development/implementation/refinement of each POS that is filled out annually by the instructor(s) that are involved with that POS.	\$4,470.00
Jefferson	\$33,920.00	\$5,386.00	Facility and Mobile Equipment Maintenance	Fort Atkinson had a pending retirement, which began discussions on the realignment of courses in this POS. Several meetings were held to discuss curriculum and those meetings are continuing into next year with alignment of courses to the technical college and further discussions and clarification about technical college credit. Jefferson went through their NATEF evaluation and the program was certified for another 5 years. He finished his cluster map and POS map which is being used in his classes. They are starting the curriculum review process in their district. This program has dual credit with MATC and is the NATEF advanced auto program for the county and other schools can access it through youth apprenticeship. A night class is being discussed that can also be dual credit. An advisory committee is very active with this program. The Wisconsin Program of Study Implementation Component Guide rubrics are on file for each area that documents the progress on development/implementation/refinement of each POS that is filled out annually by the instructor(s) that are involved with that POS.	\$4,863.00

Jefferson	\$33,920.00	\$5,386.00	Plant Systems	A WIRED Grant along with CP funds allowed for the expansion of YA to Horticulture and Landscaping. Fort Atkinson has begun science equivalency for their courses. Jefferson is starting an evaluation of the current courses and making the POS more current. Because of the expansion of YA we have seen an increase in students enrolled in a work-based experience. The Wisconsin Program of Study Implementation Component Guide rubrics are on file for each area that documents the progress on development/implementation/refinement of each POS that is filled out annually by the instructor(s) that are involved with that POS.	\$1,792.00
Jefferson	\$33,920.00	\$5,386.00	Production	Fort Atkinson had a pending retirement, which began discussions on the realignment of courses in this POS. Several meetings were held to discuss curriculum and those meetings are continuing into next year with alignment of courses to the technical college and dual credit offerings. Jefferson finished their cluster map and POS map which is being used in their classes. They are starting the curriculum review process in their district. The district is working on getting more depth to this program and having more Youth Apprenticeship registrations. The Wisconsin Program of Study Implementation Component Guide rubrics are on file for each area that documents the progress on development/implementation/refinement of each POS that is filled out annually by the instructor(s) that are involved with that POS.	\$1,869.00
Jefferson	\$33,920.00	\$5,386.00	Restaurants and Food/Beverage Services	The Fort Atkinson instructor has been very proactive in developing a comprehensive pathway. This year he proposed a two hour block of time for the next course in the progression and it was approved to start next year. We also had our first Hospitality YA student enrolled with the projection for more next year. He also attended consortium, DPI and association meetings as well as the ProStart and ServeSafe training to advance his POS. Jefferson finished their cluster map and POS map which is being used in their classes. They are starting the curriculum review process in their district. The instructor attended consortium, DPI and association meetings to update curriculum. The instructor is pursuing ProStart and ServeSafe training. The Wisconsin Program of Study Implementation Component Guide rubrics are on file for each area that documents the progress on development/implementation/refinement of each POS that is filled out annually by the instructor(s) that are involved with that POS.	\$5,626.00
Jefferson	\$33,920.00	\$5,386.00	Therapeutic Services		\$0.00

Sheboygan Area School District	\$88,941.00	\$8,212.85	Administrative Support	Review of curriculum will require work to have 100% match and articulated software coursework offered through the technical college for additional levels in the software area. Direction of reviewing potential match to introductory supervision work for articulation in alignment with management may be open for exploration based on December, 2009 meeting at LTC. Teacher certification barriers may cause barriers in articulating similar coursework through the UW system. Work continues to align curriculum with technical college to obtain transcribed credit. Work continues in professional learning communities to analyze common assessment data and develop instructional strategies to enhance instruction. National standards are reviewed to align with national core standards, once published and how that impacts current national standards in each discipline area. The pilot for e-portfolio had barriers of storage. A re-vamp of using the common assessment seems a more accurate and personal accomplishment for students in aligning courses that articulate with the software learning center at the technical college. Common assessments are reviewed with proficiency criteria to ensure the integrity of the coursework.	\$7,078.96
Sheboygan Area School District	\$88,941.00	\$8,212.85	Construction	The Construction POS has allowed the Sheboygan Area School District to continue and further develop its House Construction Program. We have secured an articulation agreement with Fox Valley Technical College with their Carpentry program and students can also apply for advanced standing with Lakeshore Technical College in the Carpentry apprenticeship program. Students that complete the districts House Construction Program can receive 500 hours that may be applied to a carpentry apprentice program. We have updated and purchased curriculum materials that both high schools share. We also attend a "Hands on Open House" at Fox Valley Tech. These experiences expose students to opportunities for post high school	\$571.19

Sheboygan Area School District	\$88,941.00	\$8,212.85	Engineering and Technology	1. School counseling and career development • Brochure was developed outlining POS and Career Map and made available to parents & students at PT conferences, as well as to counselors. 2. Rigorous curriculum and quality instruction • 3rd & 4th Wednesdays of each month are spent addressing the four PLC essential questions 3. Transition planning and policy • Membership & participation in Lakeshore Technical College's Drafting Advisory Committee 4. Accountability and continuous improvement • 30% of seniors in program continued program at college level. • 70% of students participating in first level course advanced to 2nd level course. 5. Foundations • Complete training for POE • Collegial time spent aligning district high schools and middle schools.	\$11,119.50
Sheboygan Area School District	\$88,941.00	\$8,212.85	Facility and Mobile Equipment Maintenance	Coursework is continually being revised and updated to reflect industry knowledge, skills, and standards. Curriculum crosswalks and course content sequencing is currently in progress. While no articulation has been established yet, secondary curriculum continues to be added and revised to more closely align with local technical college. POS instructor (s) continues to seek out and attend update training and professional development activities.	\$1,828.76
Sheboygan Area School District	\$88,941.00	\$8,212.85	Information Support and Services	An articulation meeting held December 2009 revealed that several courses are undergoing revamp at the technical college. School updated software is a match to technical college. Additional discussion of technical college staff and high school staff determine that MOS testing not offered at this technical college. The value and cost for MOS being reviewed for potential certificate alignment as a replacement standard, which likely will be a better fit and less cost. A major revamp and extension of study to some web design components make it timely to align web development efforts with the high school area. Staff members apply for technical college teaching status for articulation of transcribed credit. Currently 3 of the 6 staff members received that verification. Continued work in professional learning communities at both high schools continue as national standards are unveiled and articulated with support courses.	\$71.33

Sheboygan Area School District	\$88,941.00	\$8,212.85	Teaching/Training	• Two F/CE teachers attended DPI child care conference in Oct. to renew program assurances • Purchased FCCLA promotional materials • Curriculum development for F/CE classes to align with state/national standards • Pupil travel to FCCLA competitive events • Purchased materials for use in creating student-developed displays • Revised common assessments for Child Dev. II and college-level Introduction to Education classes • Developed 1st year of co-curricular organization at North High, students competed and 1 student earned a silver medal • Continued co-curricular organization at South High for 3rd consecutive year, students competed and earned medals.	\$6,593.63
Sheboygan Area School District	\$88,941.00	\$8,212.85	Therapeutic Services	The Therapeutic POS has been instrumental in career development for our students by purchasing educational medical classroom materials, funding field trips to the local technical college, curriculum development, and teacher training and helping to fund student participation in HOSA (Health Occupations Students of America). This year we had a record number of students participate from North and South for a total of 41 with 6 students qualifying for the National Leadership Conference in their skills competitive events. Through the help of the Therapeutic POS, we have qualified students for the National Leadership Conference Skills Competition for 4 straight years.	\$14,336.83
Sheboygan Area School District	\$88,941.00	\$8,212.85	Visual Arts	During the 2009-2010 school years, I made significant strides in aligning my graphics curriculum with LTC's intro Photoshop, Illustrator and InDesign classes. My graphics class is now essentially set-up and run matching the LTC curriculum. This realignment should put me in a position to get some sort of articulation between LTC and North high in regards to Graphic Design.	\$1,039.86

<i>Fiscal_Agent</i>	<i>Grant_Award_Dollars</i>	<i>Multiple_POS_Dollars</i>	<i>POS</i>	<i>Progress_with_POS</i>	<i>CPA_\$\$_Expended/POS</i>
Wausau School District	\$78,062.00	\$11,694.00	Manufacturing Production Process Development	Implemented "Introduction to Production Welding" as a transcribed credit class through NTC. The mondy received allowed us to update our welding technology to current standards, a requirement of NTC to grant transcribed credit. Students can now perform multiple welding functions on a single machine, where previously each machine was dedicated to an individual function or not available at all. Tool post for the lathes and an indexing head for the mill was purchased so students can learn and apply skills that directly relate to the manufacturing pathway. Professional development toward implementaing LEAN manufacturing, WTEA conference in the Wisconsin Dells to learn from experts in their respective fields on how to best educate students.	\$12,648.00
Wausau School District	\$78,062.00	\$11,694.00	Printing Technology	Wausau West purchased a (\$35,000)printing press, \$7,000 of Perkins funding went toward this purchase. The balance of funding was used to purchase a font package, and printer cartridges so students could print their proofs of their designs and artifacts to fulfill the portfolio requirements of this pathway.	\$10,202.00
Wausau School District	\$78,062.00	\$11,694.00	Therapeutic Services	The "Susie Simon" doll enhances learning by letting the students demonstrate a skill they have learned (learn by doing), they are putting their knowledge into practice. For example when we cover our CNAchapter students are able to transfer patient from wheel chair to bed, practice making a bed with a patient in it and even use the doll during our chapter on anatomy and physiology and EMT chapter. The blood letting arm we have used in our chapter on vital signs as well as our as well as our CNA chapter. We have the arm set-up as a station and the students practice blood-letting. We have enhanced learning by exposing students to a new environment which we feel provides the students with more difficult challenges that allow for more individual learning. We also feel field trips put knowledge into practice, we teach students concepts and let them experience it first hand-hands on approach to learning.	\$5,300.00
