

Pathways to Prosperity – ACTION PLAN

Meeting the Challenge of Preparing Young Americans for the 21st Century

Professional Development Goal: create and provide multiple learning pathways for students, through your programs of study which will expand traditional methods for gaining expertise in a given field and broadening the role of employers, by developing a social compact with young people to foster education in specific learning disciplines to meet their future employment needs.

District Goals: to provide practical solutions to effectively transform your programs of study and map a strategy to prepare **ALL** students for multiple post-secondary pathways.

-
-
-

Building Goals: to reconnect all the components related to CTE, school counseling, technical skill attainments, workforce development and industry partnerships to create and improve seamless transitions and build credibility in today’s competitive economic environment.
