Another common error occurs when the IEP team participant who fills out the <i>Worksheet for Consideration of Existing Data</i> fails to include his or her own input.</p> <p>An error also occurs when a case review by a problem-solving team (teacher assistance teams, building consultation teams) prior to referral for special education is documented, instead of the IEP team's review to decide whether additional evaluation data is needed to complete an IEP team evaluation.</p>

					<p>Stating the amount of service as a minimum is not acceptable because it is not a clear commitment of resources, e.g., “a minimum of 15 minutes three times per week” or “at least 30 minutes four times per week.” Statements such as, “as needed”, “upon teacher request”, or “when appropriate” do not make clear the LEA’s level of commitment of resources and should not be used. While “40 minutes/week” or “one hour daily” are acceptable statements of amount and frequency, supplementary aids and services often need to be stated in terms of the circumstances under which they will be provided. For example:</p> <ul style="list-style-type: none"> • “use a computer for writing assignments longer than one page,” or • “Give multiple choice tests in place of fill-in-the-blank tests in biology.” <p>Sometimes the IEP team decides a student’s self-advocacy skills need to be developed. They want to encourage the student to realize when he/she needs help and to ask for it. In this case, it is appropriate to include an annual goal to develop the behavior. However, in such a case it is not appropriate to state the amount and frequency of the service as “upon student request.” The IEP team must still decide the needed amount and frequency or the specific circumstances when the service is needed and include it in the IEP. Including this information in the IEP will make clear to those implementing the IEP what the student needs, even if the student doesn’t recognize the need and ask for the service.</p>

Benchmarks describe the amount of progress the child is expected to make within specific segments of the year. Short-term objectives break the skills described in the annual goal into discrete measurable intermediate steps. There is no requirement to develop a benchmark or short-term objective for each alternate achievement standard.</p> <p>Sometimes the IEP team will develop benchmarks or short-term objectives even though the student will not participate in an alternate assessment.
