The *Characteristics of Successful Districts* was initially developed after reviewing the available literature on district support for improved school and student performance. In August of 2005, a workgroup of team members from seven Wisconsin school districts developed the indicators for each characteristic. The draft rubric was then used by these districts to conduct a Self-Assessment of efforts to support their low-performing schools. The final version contained in this book is the result of their feedback and the expertise of various stakeholder groups across the state. The workgroup was comprised of the following individuals, who served in the roles listed below at the time that this document was produced.

We thank these educators for their professional insights and contributions to the development of this set of rubrics.
