Release Notes for 9/17/2019 WISEid/WISEstaff Production Release

Feature Title	Notes
WISEid: Hotfix - Toggle off users getting to New Layout home page	Fixed an issue that caused users to see the new WISEid layout after entering the application through secure home after a district had verified their WISEid contacts for the year. The new site layout will roll out 10/1/19 when ready.
WISEid: Hotfix - Notification not opening correctly	Fixed an issue where some Notification Inbox messages didn't open to the correct report page with filters applied.
WISEstaff: Add Local Person ID column to audit result csv file modify view	Going forward for the 2019-20 audits and after, the most recent Local Person ID for your agency will be included in the audit CSV download file.
WISEstaff: Add fields to Assignment Code List	For both Public and WiSEstaff Assignment Code List in the download only, we've added fields for CCD Staff Category, Position Type and Position Classification.
WISEstaff: Add Info icons to Edit Staff page	On the Edit Staff Page, we added tooltips for fields on the Current Year Contract Details and Your hiring agency assignments sections for Add/Edit so that users can determine what each field is asking for.
WISEstaff: Add instructional content and previous year FTE to Enter Aggregate Staff FTE page	On Enter Aggregate Staff FTE, we added improvements to avoid

	confusion on reporting. Add total FTE to current year data. Also, add Previou Year Aggregate Staff FTE section so users can compare years. Added additional instructions at top to clarify things.
