Release Notes for 2/12/2015 WISEid Production Release (WISEid Core Apps Sprint 77)

Feature Title	Notes
WISEid: Bug: Lock Agencies lists down to current school year	Created a setting to set current application year to 2014-15 school year for list of agencies in the application. Became a problem as the 2015-16 school directory opened for edits.
STAFF: Assignment Restrict Edit/Delete to Hiring Agency	Last release we made visible the hiring agency for assignment records. This showed that that users could edit other hiring agencies records. We have now locked the assignments so you must be in and have rights to edit to create or modify that hiring agencies records. We also split out assignment records that are for other hiring agencies as a separate section.
STAFF: Validation- Local Experience Part 2	Finished validation Logic for the Assignment Local Experience field. In the UI it is currently labeled District Experience, but that will be fixed in the next release.
STAFF: Add ELO Birthdate & change populate WISEid logic in historical person download	For Historical data linking to WISEids process have change system if no WISEid birthdate the birthdate can be populated from ELO. Also, changed system to allow WISEids to be populated when person is already in the WISEid system.
STAFF: Validation- Total Experience	Validation for the Assignment Total Experience field.
STAFF: Validation Default Grades Fields for certain Assignments.	A portion of the validation for Assignment Grades fields.
STAFF: Validation- Grades for certain grade levels	A portion of the validation for Assignment Grades fields.

WISEid: Merge Download Results and Download Transaction History files to same format	Download Results and Download Transaction History now have the same format. Download Results is just the slice of Download Transaction History that pertains to a specific upload. We will be publishing the download specs to vendors soon as this is the final format for this year.
STAFF: Validation- Assignment Code 73-0000 Validation	Changed the Assignment UI so the field order allows for Assignments to be limited by which school are chosen. This was to facilitate limiting the Assignment Code 73-0000 to WI School for the Deaf and WI Center for the Blind & Visually Impaired.
WISEid: BUG: Resolve Match Summary: Match Selected fields incorrect	Made the screen when resolving matches to be more clear. Also, put values that were upload on the screen so user can verify they have the right person.
WISEid: Resolve Match Summary: uploaded file Title Text	Included on the Resolve Match Summary message that if legal name and demographic fields need to be modified they should call Custom Service with the CS phone number. We also modified language and labeling to be more clear on that screen.
WISEId: Person List by Local ID Download	A list of all WISEid persons for the selected agency that have a Local Person ID for that agency attached to the WISEid person. CSV format. Will publish download specs to vendors soon.
WISEid: WISESEARCH: Integrate Clientside WISEsearch nuget package into WISEid	Work to make the searching component a separate module and allow it to be on its own server for performance enhancement.

WISEid: WISESEARCH: Share WISEsearch code with EDFI	Sharing our WISEsearch from Ed-Fi
STAFF: Validation- FTE	Validation for Assignment FTE field. Also, added percentage symbol in UI field to make clear it is a percent.
WISEid : Update dpimaster.Agency	Data import needed to set the active school year of the WISEid application.
