Release Notes for 4/6/2015 WISEid Production Release (WISEid Core Apps Sprint 81)

Feature Title	Notes
STAFF: BUG - Missing Working LEA (upload and UI)	Fixed Fault status when uploading 00 or null Assignment Working LEA. Now system just blocks the records as an error.
STAFF: Limit Historical Contract & Assignment Download to last year only	We were putting 4 years worth of Assignment Contract and Assignments in the Historical downloads. This has been changed to only last years records.
STAFF: Bug CESA Historical Assignments & Contracts fails	Historical Assignments and Contract download wasn't working for CESAs. This has been resolved.
STAFF: Bug - Validation Screen not completely clearing when records are cleared	Fixed the removal of all validation message that do no longer apply.
STAFF: SQL job to Populate missing Entity ID from ELO data when exact matches	Created a nightly job that populates ELO Entity IDs in WISEid when there is one exact legal name match between names and birthdates.
WISEid: Bug Fix Production search service indexing issues and performance	Improvements with the WISEid search service
STAFF: Bug - Provide error message when Entity ID is incorrectly formatted	Resolved where Entity ID error messages were not being correctly generated.
STAFF: Created SQL Job to Update Staff Legacy DB with WISEids every 4 hours	Created a job update Historical data to reflect WISEid matches assigned by DPI.
STAFF: Emergency User Story - 53-0002 and 53-0003 Bilingual question should not appear.	Changes to error messaging from TEPDL to assignments 53-002 and 53-003.
STAFF: Add Validation for assignments that require Entity ID	Added validation messages when a staff person has an assignment

	requiring a license and they do not have an ELO Entity ID populated in WISEid.
WISEid: School Field Needed to complete decode for Act As and Working Agencies	Special school coding needed for WCBV, DPI and WSD.
STAFF: Validation- Working School - 2r Charters UI improvements	Changes for working school for 2r Charters schools
STAFF: Bug Highest Degree upload of 00 should be converted to null	There was a bug preventing uploads for Contracts when the Highest Degree was 00. We now convert 00 to null during the upload.
STAFF: Bug Local and Total Experience should be converted during upload	We were supposed to be dividing Contract Local and Total Experience by 10 when uploaded. We also inserted error logic to make sure that only whole or half years were allowed in the pload.
WISeid: For the Person Search function, Add Entity ID	Added ability to search by Entity ID in the Person Search. Also, displays in Person Search results.
WISEid: BUG - Fix Error Review page performance issues and timeouts	Fixed Results Errors timing out when clicked on error number..
WISEid: Historical Person Download make copy with only records missing WISEids	Created a new Historical Person Download that targets only records missing WISEid matches.
STAFF: Emergency User Story - 99-9093 assignment added - Need to review application Dynamic Questions and Validation	Added a new assignment 99-9093 and validation rules.
STAFF: Bug Fix Dynamic Questions after position/area table refresh	Needed to update Assignment dynamic question logic for changes in Assignment codes.
STAFF: Bug fix Assignment UI Save button	Assignment UI Save button wasn't updating validation messages. This has been fixed so validation reruns when Save button is clicked.

WISEid: Bug: Resolve Duplicate does not remove inactive person from search	The inactive WISEid record that was merged into an active WISEid record was showing up in the search results. We have fixed the system so it instead shows the active record when you search on the inactive WISEid.
STAFF: Bug Historic Person Download - remove duplicate records	Merged WISEid records were creating duplicate records in the Historic Person Download. This caused errors in the Historic person upload until the duplicate records were removed from the upload. We have fixed the download to not have the duplicate records.
