

License Based on a Content Test Pathway - Science Licenses

As of December 2010, educators who hold a valid Wisconsin **Professional Educator Science** license at the middle/secondary level¹ may apply for additional science licenses through the License Based on a Content Test Pathway. This pathway allows a Professional Educator to demonstrate their content knowledge in a related science area by passing a content test approved by the State Superintendent. The following tests are the **only approved** tests for seeking licensure through the License Based on a Content Test Pathway for Science related licenses.
