

Method Test Prep

SAT Method & ACT Method

With both SAT Method and ACT Method, students can listen to a professional tutor explain the concepts and questions that they are struggling with, without reading through pages of intimidating text. Students get immediate feedback and a complete explanation for every practice question. Each student's performance is tracked and strengths and weaknesses are clearly indicated. Counselors and parents can see where students need to focus their study time.

Since SAT Method and ACT Method are available on-line, students have access from any Web-enabled computer, making it easy for them to study when it's most convenient.

Long-term benefits

When students prepare for the SAT and ACT, they are building reading, writing, math, and critical thinking skills that they will use for the rest of their lives. Spending just 15 minutes a day using the on-line SAT and ACT prep can make an enormous difference, not only in a student's test scores but in their overall academic performance. Many students across the country are now taking both the SAT and ACT, so offering preparation for both exams is a distinct benefit for students.

Every school subscription includes a comprehensive tracking report allowing educators to monitor student usage.

With SAT Method and ACT Method, you can give every student in your school the opportunity to increase their standardized test scores for what some families spend on test prep courses for a single student.

With SAT Method and/or ACT Method, students can:
