

Based on what we have covered today, what new ideas do you have to strengthen connections between the ACP and PTP processes for students with IEPs?

I love the idea of connecting with Workforce Development.

Career Pathways fairs with area businesses

I like the idea of a 16-18 y.o Transition Program

More activities sponsored by special ed, but including all students

Senior practice job interviews with Staff and administration

I have only elementary students, so I'm not sure I should be here in the first place. Thanks. Working with employers in the area is a great idea I will take back

Making sure that all staff understand the connection (& resources) with ACP & SPED

We are sending three students to Jump Start at Nicolet College next year!

I love the idea of having local businesses come to the school and talk to the students.

love the idea of getting local businesses involved with this process

I know I need to work more with our CTE department

The grade level Transition check lists for families and students.

Aligning with local businesses and expanding opportunities for students

Starting with programs for SwD, but then using those programs with ALL students (UDL!)

We do Skills to pay the Bills with DVR

working to build connections for schools between workforce development programs/services
