

Wisconsin ACP Lessons

Are you looking for ready-made lessons that you can use immediately with students in either a face-to-face or virtual environment? Thanks to ACP grant work done by CESAs 9, 7, and 6 through the Wisconsin Department of Public Instruction, teachers can find student-facing ACP lessons which follow the Xello scope and sequence recommendations. These ACP lessons can be pushed out to students in any delivery model, and if supplemented by teacher instruction, involve little prep work on the part of the teacher. The lessons are intended to be resources for the implementation of year-long delivery of a comprehensive ACP Program guided by a teacher/school counselor and are not intended to serve as stand-alone programming. ACP Programming is a student-driven, adult-supported process in which students create and cultivate their own unique and information-based visions for post secondary success, obtained through self-exploration, career exploration, and the development of career management and planning skills.

Below you'll see lessons identified by "type":

- "Dashboard Resources" are those which simply direct students where to go in Xello to complete a Xello lesson or task.
- "Assignments" are those which require students to actively engage in an ACP activity. These activities may include the use of Xello to complete the assignment and generally result in a product which can be used as an assessment tool by a teacher/school counselor.

Assignment	Lesson 16: Final Reflection	<p>I can reflect on the Academic and Career Planning process that I participated in during high school.</p> <p>I can reflect on my own career and college readiness.</p>	<p>30 minutes for creation of final reflection</p> <p>Will need computer access</p>

Technology Awareness Announcement

As suggested by high school counselors in a number of districts, the Wisconsin ACP Lessons use not only the Xello platform, but also incorporate the use of a number of other career readiness platforms, especially at the high school level. Please share this list of websites and platforms with your district technology department to make sure that students have been given access to these websites before they try to use the Wisconsin ACP Lessons:
