From: Sharon Wendt, Director
Career and Technical Education Team
Subject: Perkins V Accountability Reports for 2020-2021

Perkins V established a focus on state and local performance measures to expand and improve access and equity to Career and Technical Education (CTE) programs utilizing Perkins V funding. The data collected through the December 2021 snapshot was used to calculate the 2020-21 performance results. Please visit the CTE Data webpage <https://dpi.wi.gov/cte/data/cte-data> to review the Perkins V Performance Indicators and target rates.

Perkins Fiscal Agents will receive their secure Perkins Accountability Reports before the end of April through Kiteworks. This report is intended to assist consortia/LEAs to develop CTE programs that support students' college and career readiness.

Please feel free to reach out to Jessie Sloan, CTE Data Consultant with questions, Jessica.Sloan@dpi.wi.gov
