

September 2019

Dear School District Administrator:

The Annual Fall In-Service for Agricultural Education Teachers will be held at a location near you during October and November (*see enclosed brochure for locations and dates*). Please share the brochure with your agriculture teacher(s) and encourage them to attend. The in-service has a lot to offer this year:

- Innovative topics, including Supervised Agricultural Experiences (SAE) for all students through work based education
- “Best practice” forums in curriculum and instruction by area agriculture teachers
- Department initiatives on agriculture-science equivalency credit, Perkins V, agriculture industry credentials and animal lab safety guidelines
- No registration fee

The in-service runs from 8:30 a.m. to 3:30 p.m. and is sponsored by the Department of Public Instruction, Wisconsin Association of Agricultural Educators, Cooperative Educational Service Agencies, and the Wisconsin Technical Colleges.

Thank you for the continued support of your Career and Technical Education staff.

Sincerely,

Sheila J. Briggs, PhD
Assistant State Superintendent
Division for Academic Excellence

SJB/jh
