

Agriculture, Food and Natural Resources Value Chain

As in any industry, **CONSUMERS** and **TECHNOLOGY** drive what and how things are produced. Right now, **PERSONAL HEALTH**, **SUSTAINABILITY** and **NUTRITION** are significant drivers affecting ag, food and natural resources, but there are other market factors constantly weighing on these industries as well, including **ECONOMICS**, **GOVERNMENTAL POLICIES**, the **ENVIRONMENT**, **DEMOGRAPHICS** AND MORE. Meanwhile, **INNOVATION** makes involvement in these industries ever-expanding.

CAREERS + OPPORTUNITY
