### About the Summer Institute

The annual Wisconsin American Indian Studies Summer Institute is an active, highly participatory, week-long workshop designed to increase participants' understanding of issues related to the history, culture, and tribal sovereignty of the eleven federally-recognized American Indian nations and tribal communities in Wisconsin.

The goals of the summer institute relate to both American Indian Studies and the education of Native American students. The summer institute aims to improve teaching and learning and to enrich student services, resulting in becoming more culturally responsive. ## Activities

Classroom sessions use a variety of teaching methods and provide opportunities for both presenters and participants to share information, resources, best practices, and model programs. A field trip and other sessions outside the classroom provide opportunities for experiential learning. Rich discussions allow everyone to share their insights and reactions.

Perhaps most importantly, participants will have the opportunity to work in small groups to develop an action plan to teach others what they have learned. Events will include a celebration of the relationships we have made and the things we have learned at the summer institute with a traditional feast and cultural activities.

## Staff and Presenters

Our staff and presenters come from a variety of academic and personal backgrounds. These individuals serve as resources and mentors, and they assist in facilitating daily small group sessions designed to help participants process what they have learned and develop an action plan that extends their learning to others.
