

## Resource Inequity Data Tool

The 2021-22 Resource Inequity Data Tool is now available in the [Secure Access File Exchange \(SAFE\)](#). This tool helps school and district staff examine the distribution of resources within their schools and align these resources with local equity goals. Specifically, this tool will help school and district staff:

- Examine distribution of resources: staffing, funding, course offerings, instructional materials, and engagement with families.
- Compare school, district, and state data to see where your school and district stand relative to others.
- Ask key questions to find patterns in the data.
- Plan action steps to better align distribution of resources with local goals.

The Resource Inequity Data Tool was designed as a resource for Comprehensive Support and Improvement (CSI) and Targeted Support and Improvement (TSI/ATSI) schools developing improvement plans. Though the tool is specifically targeted to these identified schools, it is also provided to all schools to help identify and address resource inequities.

We hope you find this newsletter and its contents beneficial. Questions may be to the [Office of Educational Accountability](#).
