WISCONSIN STATEWIDE ASSESSMENT SYSTEM UPDATES

Assessment

New:

May 24 Snapshot

DPI will take a snapshot of all demographic data for students in all grades on Tuesday, May 24. This snapshot marks a good end-of-school-year opportunity to confirm the accuracy of demographics for all students. Additionally, these data will be used to make sure that demographics associated with assessment results are as accurate and timely as possible. OEA uses these demographics on the school report cards. There are resources available to you on the [DPI Snapshot Preparation Guidance webpage](#). If you have any questions in preparation for the May 24 WISEdata snapshot, please submit a [help ticket with WISEsupport](#).

Reminders:

New Assessment for 9th and 10th Grades

Beginning with the spring 2023 administration, 9th and 10th grade students will be administered the PreACT Secure assessment. PreACT Secure is an online assessment offered by ACT and is predictive of performance on the ACT test. PreACT Secure will be replacing the ACT Aspire assessment. Visit the [DPI PreACT Secure webpage](#) for an overview of this assessment. Direct assessment related questions to osamail@dpi.wi.gov.

Vendor-Based Assessment Reporting Timeline

The 2021-22 Vendor-Based Reporting Information is now available under Wisconsin State Assessment Timelines on the [Assessment webpage](#). As assessment reports become available in the secure portals, please be aware that DPI will publicly release the statewide assessment results in the fall. Until this public release, do not release your district's assessment results to the public. Data security and student privacy requirements, as outlined in the Family Educational Rights and Privacy Act (FERPA) and state law, must be maintained when results are shared publicly. More information about maintaining student data privacy is available on the [Student Data Privacy webpage](#).

The vendor-based data reporting is separate from the extensive reporting processes at DPI. As the final data files are being delivered to DPI from each of the vendors, DPI staff prepare the data for reporting in WISEdash for Districts, the WISEdash Public Portal, and the Accountability Report Cards. DPI Data Warehouse and the Office of Educational Accountability (OEA) are working to load, clean, quality assure (QA), and report data in time for the WISEdash Public release.

ACT with writing

Accountability

Reminder:

Resource Inequity Data Tool

The 2021-22 Resource Inequity Data Tool is now available in the [Secure Access File Exchange \(SAFE\)](#). This tool helps school and district staff examine the distribution of resources within their schools and align these resources with local equity goals. Specifically, this tool will help school and district staff:

- Examine distribution of resources: staffing, funding, course offerings, instructional materials, and engagement with families.
- Compare school, district, and state data to see where your school and district stand relative to others.
- Ask key questions to find patterns in the data.
- Plan action steps to better align distribution of resources with local goals.

The Resource Inequity Data Tool was designed as a resource for Comprehensive Support and Improvement (CSI) and Targeted Support and Improvement (TSI/ATSI) schools developing [improvement plans](#). Though the tool is specifically targeted to these identified schools, it is also provided to all schools to help identify and address resource inequities. Please note that schools are not required to access or use this tool. It is part of DPI's work to support schools and districts across the state by providing relevant resources to facilitate the [continuous improvement process](#). Please contact dpititle1@dpi.wi.gov with any questions.
