## Writing Score Frequency Distribution by Student Group 2001-02

## Grade 4

In the writing portion of the WKCE, students produce a rough draft writing sample on a specific topic. All students at the grade level receive the same topic. Topics fall into three categories: personal expression (narative or descriptive), informative, and persuasive. For 2000-2001 students at grade four were assigned a descriptive topic. Percents provided in the table below are based on the number of students enrolled. The percents across each row add to $100 \%$.

$\wedge 0 \%$ Does not necessarily indicate 0 scores in that category. Student counts and unrounded percentage scores are also available for download in Microsoft Excel format.
*Omitted scores indicate no response was given. They are not scored as zero.
**A score of zero is given for responses that are illegible, off topic, primarily in another language, or if the writing sample is of insufficient length for evaluation.
