Subject: OSA News Flash - September 16, 2016

Good afternoon, District Assessment Coordinators –

We have two items to which we wanted to draw your attention before the weekend.

9/16-18 DRC Maintenance Outage Canceled

We were just notified by DRC that the scheduled maintenance outage that was scheduled to occur this weekend, as mentioned in the 9/14 DAC Digest, has been postponed. As a result, all DRC systems will still be available. The next outage on 9/30 to 10/2 is still scheduled as planned.

DLM Individual Student Reports

As communicated in the 9/14 DAC Digest, DLM has posted the 2015-16 Individual Student Reports in Educator Portal. However, we wanted to share that we are aware of some issues with the availability of the ***bundled*** version of DLM ISRs in Educator Portal. The bundled version of the ISRs allows districts to print multiple student reports at either the district- or school-level at one time. The bundled version is currently *not* available.

Districts are still, however, able to access and print the single versions of the Individual Student Reports by filtering down district, school, content area, and grade.

We are working diligently with DLM and will provide an update early next week as more information from DLM becomes available.

Have a wonderful weekend!

Viji Somasundaram
Director, Office of Student Assessment
WI Department of Public Instruction
