

Mary Johannesen

Business, Marketing, and Information Technology
State Superintendent Advisory Council

Career Prep Specialist at Wisconsin Technical College
System (WTCS)

“It is critical that we equip individuals with the skills and abilities to be successful in the 21st century. All areas of society strongly depend on and utilize business, marketing, and information technology skills, so it is vital that our students receive up-to-date instruction from our teachers to gain relevant skills to be competitive and successful in today's work world.”
