 - b. researching virtual/augmented/mixed reality and advanced data analytics;
 - c. advocating for and support programs that promote digital literacy, cybersecurity, cyber safety, and critical thinking skills related to emerging technologies within library services for the public;
 - d. advocating with stakeholders in achieving statewide broadband service that is accessible and affordable for all Wisconsinites; and
 - e. advocating for strengthening existing protections for reliable and affordable broadband access across Wisconsin.
3. COLAND will monitor trends, developments, and challenges in modern library science and support the DPI's, library districts and systems, individual libraries, and professional groups as they implement and experiment with new programs - especially those which service marginalized populations such as incarcerated individuals.
4. COLAND will defend intellectual freedom and the right to read by monitoring state and national trends in book challenges and the groups promoting them and supporting libraries and their staff as they deal with challenges.
5. COLAND will monitor tribal libraries and support efforts to deal with challenges both unique to their system and those similar to all libraries.
