USDA Child and Adult Care Food Program

Fruit and Vegetable Components

This handout covers information about the new fruit and vegetable requirements for children 1 year and older and adult participants in the Adult Care Program. There is a separate handout on the new infant meal pattern requirements. The term Program refers to all facility types: group child care centers, family day care homes, afterschool programs, emergency shelters, and adult care centers. Find this handout and more information on the New CACFP Meal Pattern webpage: https://dpi.wi.gov/community-nutrition/cacfp/new-cacfp-meal-pattern.

New Requirements
Effective October 1, 2017

- Fruits and vegetables are separate components at lunch, supper and snack. A vegetable is required at lunch and supper.
- A fruit and a vegetable can be served as a snack.
- Juice may only be served at one meal or snack per day.

Separate Vegetable & Fruit Components

- Breakfast: No Change. Vegetables and fruits remain combined as one meal component.
- Lunch & Supper: Change. Vegetables and fruits are separate meal components.
  - A vegetable and a fruit, OR two different vegetables must be served. Two fruits cannot be served.
  - When two vegetables are served at lunch/supper, the serving size of the second vegetable must be at least the same serving size as the fruit component it replaced.
  - The serving size of the fruit and vegetable components are equal at lunch/supper and snack for each age group except 6-18 year olds at lunch/supper.

Vegetable & Fruit Serving Size Requirements

</tr>
</tbody>
</table>

- Snacks: Change. A fruit and a vegetable can be served as the two required components.
  - When two fruits are served at lunch, the serving size of the second fruit must be at least the same serving size as the vegetable component it replaced.
  - The serving size of the fruit and vegetable components are equal at lunch/supper and snack for each age group except 6-18 year olds at lunch/supper.

New CACFP Meal Pattern Change:
- 1 cup of raw leafy greens = ½ cup vegetable
- ¼ cup dried or dehydrated fruit (100%) = ½ cup

Vegetables
- Chicken
- Carrots
- Broccoli
- WG Bun
- 1% milk

Fruits
- Chicken
- Carrots
- Apples
- WG Bun
- 1% milk

Snacks
- Kiwi
- Carrots
- Celery
- Strawberries
- Bananas

Pop Quiz
Are tomatoes and avocados counted as fruits or vegetables?

The answer is on the next page...
Fruit and Vegetable Mixtures
Mixtures of vegetables and fruits, such as a carrot-raisin salad, may credit towards both the vegetable component and the fruit component if they contain at least ¼ cup vegetable and ¼ cup fruit per serving. For example, a carrot-raisin salad served to 6 years olds that contains ½ cup carrots and 1/8 cup raisins (credits as ¼ cup fruit) meets the full vegetable component and the full fruit component.

Preparation
Deep-Fat Frying: Submerging foods in hot oil or other fat cannot be used as a cooking method to prepare fruits or vegetables; e.g. French fries, tator tots and hash browns, etc.

Find yummy, no-fry recipes that offer a fresh, healthy spin on your favorite flavors at USDA’s What’s Cooking website.

Q&A How do vegetables served as a combination item (e.g. mixed vegetables, peas and carrots), credit at lunch/supper? Can double the amount be served when serving two vegetables at lunch/supper?
Combination vegetables credit as one vegetable. Therefore, if two vegetables are served at lunch/supper, the combination item counts as one vegetable, and another vegetable will need to be served. Example: (1) peas and carrots, (2) broccoli. Double the amount of the combination item cannot be served.

Best Practices
- Serve a vegetable or fruit for at least 1 of the 2 required components of a snack
- Serve a variety of fruits and vegetables (fresh, frozen, and canned)
- Offer at least 1 serving of each of dark green vegetables, red & orange vegetables, beans & peas (legumes), starchy vegetables, and other vegetables each week

Juice
- Can only be served at one meal or snack per day.

Recordkeeping Requirements
All Programs must document specific fruits and vegetables on menus for each meal and snack. If changes are made, record substitutions on menus filed with the claim.

For More Information: refer to USDA Policy Memo CACFP 25-2016 and the CACFP New Meal Pattern website.

Pop Quiz Answer:
The answer is . . .
Both tomatoes and avocados are considered vegetables.

Programs can refer to the Food Buying Guide (FBG) for a list of creditable vegetables and fruits. The FBG does not include information on every possible vegetable or fruit that can be served in the CACFP, so Programs may also reference ChooseMyPlate.gov to determine if a food is a fruit or a vegetable.

Crediting Foods
Fruits, vegetables and other foods not found in the Food Buying Guide may be served in CACFP. Use yield information of a similar food to determine the contribution towards meal pattern requirements.
