- A provider can submit a written request to decline Tier 1 rates for the effective period of this waiver.
- This does not apply to Provider's Own children (see below).

**Provider's Own Children**

Providers may receive meal reimbursement (*at Tier 1 rates*) for meals served to their own enrolled children, foster children, and/or other residential children **only if they are eligible** based on their own household size and income (or participation in qualifying Benefits Programs).

- Sponsors must distribute the [2022 Provider Letter](#) and [Household Size-Income Statement for Provider's Own/Residential Foster Children](#) to their providers to complete and return for this year's eligibility determinations of their own children (*as well as their foster children, and/or other residential children*).
