

Notification of Career & Technical Education Opportunities

Each year the Anywhere High School offers Career & Technical education programs to prepare students for a broad range of high-skill/high-wage employment and training services offered under the guidance of certified teachers, counselors, and Co-op and Youth Apprenticeship coordinators.

Career & Technical Education programs are offered in the areas of Business, Family & Consumer Education, Marketing, and Engineering & Technology. Interested students should contact their counselor or refer to the course catalog for prerequisites and admission criteria.

All Career & Technical Education programs follow the district's policies of nondiscrimination in all activities and employment. A lack of English language skills is not a barrier to admission or participation.

For general information about these programs contact:
