RE: Attendance

Dear Ms. Jones,

It has come to our attention that our attendance rate that is publicly posted on the WISEdash portal for the 2020-2021 school year is incorrect. The number that WISEdash had listed was **74.0%** when in fact our attendance data for 2020-2021 school year was **93.4%**.

To calculate the data for the academic year, our data team utilized the Attendance Data Elements listed by the Department of Public Instruction (Actual Days Present/Total Possible Days of Attendance). Our data team has connected with the Department of Public Instruction and our Student Information System to correct this error and to learn more about the process in which Attendance Data is collected and shared between the two parties.

Should you have any more questions about this Attendance Data, please feel free to contact me at kara.oehler@imapublic.org or by phone at 608-661-8200.

In service to the children,

Kara Oehler, Director of Community Relations and Student Welfare

608.661.8200
