Re: Zero Attendance Reporting

Per your email, "Requesting Data Errata Submission", we have corrected our attendance for Between the Lakes Virtual Academy, and e-school. This problem occurred when a zero hour was added to student's schedules for classes. This change was not updated in the calendar for attendance. This was the reason attendance was not calculating and reporting correctly.

The calendars for Between the Lakes Virtual Academy and eschool have now been updated to use the zero hour for calculating attendance.
