Wisconsin Department of Public Instruction

RE: Data Errata Letter - WISE Academy

To Whom It May Concern:

As District Administrator of the Nekoosa School District, I was recently informed by the Department of Public Instruction that attendance was not reported for one of our schools, WISE Academy, for the 20-21 school year. We are currently working with our student information system vendor, PowerSchool, to determine the cause of this error and correct it for the upcoming school year.

All students in the WISE Academy were counted as present every day for the entire 20-21 school year.

Please contact me if you have any questions or need further clarification.

Sincerely,

Terry Whitmore

District Administrator
Nekoosa School District
