DATA ERRATA LETTER

To Whom It May Concern,

The chronic absenteeism numbers for Port Washington High School students had increased dramatically for the 2022-2023 school year. We've recently discovered that this was due to our new Student Information System (SIS) missing the scheduled minutes for our final exam days. This caused each student at the high school to be considered absent for an additional 6 days. The schedules in our SIS have been corrected and the information is now reporting accurately to WISEdata.

Sincerely,

A handwritten signature in black ink, appearing to read "BJS", with a long horizontal flourish extending to the right.

Brian J. Sutton
Student Services Director
