To Whom it May Concern,

Auburndale Elementary School - part of the Auburndale School District participates in the Achievement Gap Reduction Program through DPI. For the 23-24 school year there was an error in reporting the student count vs. the free/reduced (low income) count of students in grades Kindergarten through Grade 3. In correction of the error it was determined that there are 85 students F/R for K-3 in AES.

The error occurred within our data system, Infinite Campus. When the snapshot was taken it indicated 0 students for our low income. This was incorrect due to a technical issue when uploading the data. The correct AGR information was manually entered through the DPI portal and appropriate staff were notified about the Infinite Campus error and worked through to resolve the issue to prevent it from happening in future data reporting.

Mr. Kevin Yeske
District Superintendent

Mr. Andrew Scharenbroch
Elementary Principal - AGR Coordinator
