To Whom It May Concern

This letter is to acknowledge that the data reported by Woodlands School, Inc. WISEdash Discipline Data for 2022-23 discipline data snapshot on **12/12/2023** was not sent on time due to a SIS product configuration error within the discipline tracking system.

As of **02/01/2024**, we have resolved the issue and the behavioral data was successfully passed through the portal (please see attached email). We will use what we learned from this process for sending behavioral data in next year's snapshot.

The number of incidents and actions that should have been reported was **29 incidents and 29 actions associated with those incidents.**

If you have any questions, please let me know.

Jon Arens
Director of Pupil Services, Assistant Principal
