Re: Drop out data for 2021-2022 on December Snapshot

Please reduce the dropout number for the 2021-2022 school year by five due to the following, leaving a total of zero potential dropout students for this year:

- 1) All five-8th grade student were listed with exit code and should have been exit code TNC for a move to private school.

Even though our SIS PowerSchool published the data of school year 2021-2022, the five changes that were made from the TC exit code to TNC show up as errors. It appears that this is because the changes were made after the 2021-2022 final publishing.

Thank you for your assistance in correcting these records.

Respectfully submitted.
