Re: Drop out data for 2020-2021/2021-2022 on December Snapshot

Please reduce the dropout number for the 2020-2021 school year by three due to the following, leaving a total of one potential dropout students for this year:

- 1) A foreign exchange student was listed as TC and should have been an International move.
- 2) An 8th grade student was listed as TC and should have been TNC for a move to private school.
- 3) A high school student was listed as TC but then decided to homeschool and should have been TNC.
- 4) One high school student was listed as TC and expected transfer was to Flambeau School District. However, she enrolled at North Branch, MN High School on 9/15/2020. She should have been TOS.

Please reduce the dropout number for the 2021-2022 school year by six due to the following leaving a total of three potential dropout students for this year:

- 1) Three high school students were listed as TC but actually transferred out of state and should have been listed as TOS.
- 2) Two students (one high school, one middle school) were listed as TC but ended up homeschooling and should have been TCN.
- 3) One student completed his high school credentials after his senior year and should have been listed as receiving his diploma.

Thank you for your assistance in correcting these records.

Sincerely,

A handwritten signature in black ink, appearing to read "K Peterson", written over a horizontal line.

Katherine Peterson, EdD  
Pupil Services Director
