To Whom It May Concern:

St. Josaphat Parish School is writing a data errata letter for warning #7144 regarding dropouts. St. Josaphat Parish School has recorded 2 student dropouts for the 2022-2023 school year. This information is incorrect. There was an error when recording each student's exit type at the end of the 2021-2022 school year. This occurred in a different Student Information System than the one we are currently working with. We made the switch in 2022-2023 and are unable to access any records regarding the 2021-2022 school year in which the exit type error occurred.
