RE: 2023-2024 Graduation Rates (4-year and 7-year)

During the review of the school report card, we identified two inaccuracies. In alignment with our commitment to transparency and precision, we took immediate action to investigate and resolve these discrepancies. Through the established inquiry process, the errors have been corrected for school report card reporting.

Upon comprehensive review, it was determined that two students had been incorrectly coded as "not graduating"—one within the 4-year graduation cohort and one within the 7-year cohort. Supporting documentation was submitted to the Department of Public Instruction to substantiate these corrections, and DPI has officially accepted the revisions.

This correspondence serves to confirm that the necessary corrections have been communicated to all appropriate sources.

Please accept this letter as official notification of the data error.

Respectfully,

Dr. Cari Guden

Edgar District Administrator

RE: 2023-2024 Misreported Student Data

During the review of the December 2024 snapshot report, we noted the occurrence of some errors. As part of our commitment to transparency and accuracy, we believe it is essential to promptly address these discovered discrepancies.

After conducting a comprehensive review, we noted that two students were inaccurately reported as a drop-out. This occurred due to an incorrect exit type that was reported to WISEdata. These issues have been fixed in our SIS and should now be correct in WISEdata.

Please accept this letter as official notification of the data error.

Yours Truly,

Dr. Cari Guden  
Edgar District Administrator
