To whom it may concern:

While working with our Student Information System Vendor (SIS), Educate by TADS, it was discovered that not all of our data was being transferred to the portal for the school years 2020-2021 and 2021-2022. The data that is contained within Educate is not “sticking” when uploaded to Wise, and therefore our errors have gone unchecked and are currently being addressed. Unfortunately, we were unable to get the programming corrected prior to the snapshot on December 8, 2020 and December 7, 2021.

I continue to work closely with TADS to resolve these issues so that we are prepared for the next snapshot. In the meantime, our Choice Student Data may be found below that should have been included in our snapshot.

	2020-2021 School Year	2021-2022 School Year
Total Number of Students Participating in WPCP	25	26
Total Number shown in WISE	2	0
Total number present on, count date or one day before and at least one day after count date	25	26

Thank you for your continued response and understanding of this matter. If you have any further questions, please feel free to contact me directly.
