Re: Data Errata Enrollment and Economic Status

I was informed that Chequamegon School District was not reporting student economic status for the 3rd Friday of September and October 1 child count under quality indicators within the WISEdata Portal.

After further review of settings in our student information system, we identified the economic status was not transmitting to WISEdata properly. The data from the December 7, 2021 snapshot is not accurate; however, as of April 1, 2022, our student information system has been reporting our economic status accurately.

If you need any further information, please contact me at 715-762-2474.

Thank you,

Raymond Schulte, Ed.S.
District Administrator
