

CROSS TRAINERS
— ACADEMY —

December 20, 2021

To Whom it May Concern,

We are aware that the December 7, 2021 Snapshot of data collected for our school, Cross Trainers Academy, did not include our non-Choice students (our non-Choice students = our SNSP students from the Special Needs Scholarship Program). For this 2021-22 school year, we made a decision to "Opt-In" for our non-choice/SNSP students for testing and reporting, but we were not aware of all reporting settings linked to WiseData that are required. There was a setting in our Student Information System (PowerSchool) that we were unaware of and therefore had not activated when we made the switch to Opting-In to the *All Students Report Card* in May 2021. Since we were made aware of this issue in recent weeks, we have now activated data reporting for all students, regardless of Choice status. Please consider this explanation when reviewing the December 7 Snapshot data.

Thank you,

Dr. Don Galster
School Administrator
