December 20, 2018

Good Afternoon Michelle Jones,

Thank you for notifying us about the WISEdata data quality check zero enrollment for the Rural Virtual Academy.

The RVA school information did not push up to WISE as it should have. All information is now pushed up. We currently have 3 students showing on WISE as RVA students but so far for the 2018-2019 school year a total of 5 students have been enrolled in the RVA School. 4 students were in enrolled for the 3rd Friday count, another enrolled after the 3rd Friday count and 1 withdrew after the 3rd Friday count.

Hope this helps resolve the issue.

Thank You for all your help.
