

DPI,

My name is Kerrick Sawyer. I'm the principal at Green Bay Trinity Lutheran School. I've been working diligently with FACTS, our SIS, to have our data represented correctly in time for the December snapshot. Unfortunately through an error that I cannot fix, 3 sets of data are not uploading to DPI: Race, Economic Disadvantage, and English Level Proficiency. Engineers/developers from FACTS are looking at the mapping and online functions of the WISE integration to see why that data is not uploading. I will be done, but not in time for the snapshot. Sorry for the inconvenience.
