Attention: Customer Services Team

July 11, 2018

On behalf of the School District of Hillsboro, I am writing to request a correction to our 2017 Child Count data. I was recently informed by the individual who supports our WISEdata that several students were missed due to errors involving our district's entry of data into Infinite Campus. Specifically, the issues were regarding overlapping IEP dates, missing enrollment data for special education student and not checking the necessary child count box.

According to our data, 15 students ages 6-21 were not included in the 2017 report.

We have taken steps to properly train staff in entering this data and have furthermore even begun the process of adding to our staff to make sure that we have the appropriate number of staff who are properly trained in this area.

Please let me know if there is any further information you might need.

Sincerely,

Curt Bisarek
Superintendent
