April 13, 2022

To whom it may concern:

Our school participated in the WPCP in 2020-21, submitting choice students only data. I am writing to inform you of four instances of data errata for our school for the 2020-2021 school year. We were unable to make the corrections to the data before the December 2021 data snapshot.

The errata are as follows:

- There is one instance of a student having been present on the 3rd Friday of September 2020 but their student record is missing.
- Additionally, three students whose enrollment records indicate they did not complete the school term did in fact complete the school term.

The errors were due to missing fields in the student information system we used at the time, Powerschool.

Sincerely,

Andrew Thiesfeldt
