“Fostering a Community of Learners”

Dear Ms. Jones,

Through the process of reporting our data through WISEdata to the DPI we were made aware of an error in our reporting. This error showed that all of our 8th through 11th graders did not complete the 2017-2018 school year. In working with Infinite Campus, we believe this error occurred because we were required to adjust the dates of our school year after it had begun to accommodate construction and renovations in our Middle and High School Complex. These students did in fact, complete the school year and changes have been made in our student information system to reflect the change in the dates and the student end dates.

We feel these errors have been corrected successfully and we are attempting to report the error to DPI at this time. Should you have further questions, please do not hesitate to contact us.

Sincerely,

Mr. Tony Bird

Mrs. Lori VanHandel
