To Whom It May Concern,

There is an error in the 3rd Friday Count from September 2017 for the Pecatonica Area School District. This error was brought to my attention last week from an Infinite Campus Representative that was providing us a quote for data systems based on enrollment numbers.

Our Third Friday County that I submitted officially last September has this information in SAFR:
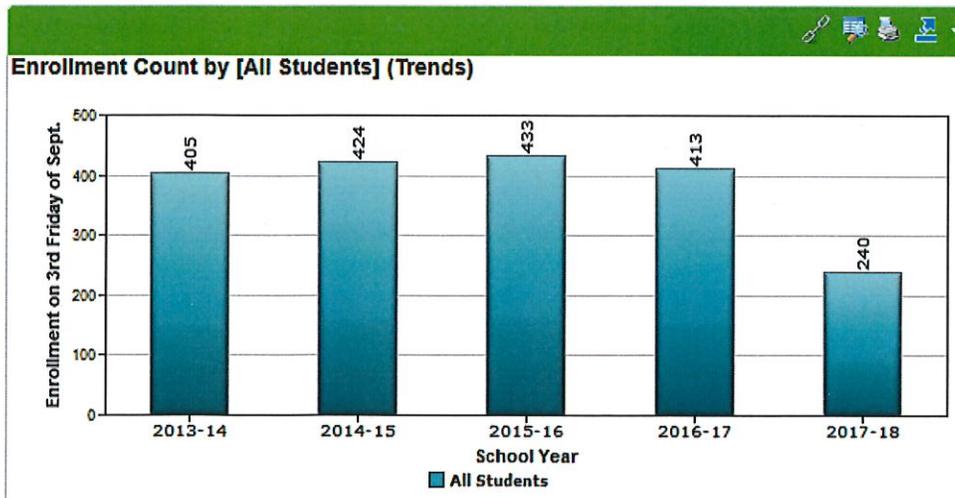

FY 2017-2018 Pupil Count - September

WiseDash Public has the incorrect number:

Enrollment Count by [All Students] (Trends)

School Year	Enrollment on 3rd Friday of Sept.
2013-14	405
2014-15	424
2015-16	433
2016-17	413
2017-18	240

All Students

I am unsure how to remedy the issue, but I would like to do so as soon as possible. The numbers that I submitted through the online SAFR portal are the accurate numbers from our September 2017 Third Friday Count.

Sincerely,
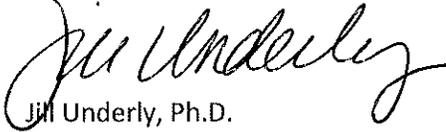

Jill Underly, Ph.D.

Hi, Jeff,

I have tried calling here and there, but haven't left messages because of the voicemail box saying that it was preferred to email. Could you let me know what you think? I think that DPI's "non-certified" labeled "current" shows 410 students for Pecatonica for the 2017-18 school year. Something got goofed up between the release of that file and the release of the "certified" file. --- Jill
