Dear Ms. Jones;

The purpose of this letter is to update the special education numbers reported in WISEdash for the 3rd Friday Count and the October 1 Child Count for the 2018-2019 school year. The correct number of Special Education Students listed for the 3rd Friday Count and the October 1, 2018 Child Count should be 105, not the number (100) indicated in the December 2018 Data Pull. Four of the students were/are correct in WISEdata, but the correct information was not transferred to WISEdash during the data pull. Another student was inadvertently left off the roster as special education services are still being provided through a parentally placed educational placement. Since the information has already been pulled by the DPI and cannot be corrected at this point, I would like to report this error to the Data Errata Website.

Please accept this letter explaining the inaccuracy in the 3rd Friday Count and the October 1, 2018 Child Count numbers for special education students in the Siren School District.

Sincerely,

A handwritten signature in black ink that reads "Denise Johnston". The signature is written in a cursive, flowing style.
