Re: 2021-22 WISEdata Snapshot Data Errata

When discussing a student reporting issue with DPI for the 2022-2023 school year, it was noted by DPI that our setting for the all student report cards was opt-out. I informed DPI that we are opt-in and no change had been requested. This error was not St. Luke's and had to be corrected on DPI/WISE side. At this time, it was also noted that our 2021-2022 report card was only reporting Choice students; it should have been reporting all students since we are opt-in for the all student report card. After discovering the error in our old SIS, corrections were made to correctly identify non-Choice students as receiving services. Our enrollment for the 2021-2022 report cards shows our enrollment as 37. The correct enrollment is 80 (K4-8th grade).

Sincerely,

A handwritten signature in black ink that reads "Michele D. Wix".
